Mr. Mark Annis,

As discussed on the phone today with your project manager, I just want to tell you how much I appreciate the fine service provided me by ANCO Environmental. I am impressed with the way your firm utilized the New Jersey DEP's Cleanup Star program to expedite *No Further Action* and closure of the environmental case associated with my commercial property (retail store) in Iselin. The great timing of Monday's approval, reported today by the state, should allow my prospective buyer to close on the sale of the property as quickly as possible!

Thank you again for the professionalism and fine work displayed by ANCO's Mark, Joe, and John, through all facets of the project. The pleasant and courteous service provided by your staff also gave me confidence that I made the right decision in selecting ANCO. From contract signing on March 21st, drilling, sampling, being kept updated on project status, submittal of the proper documents, right on through shepherding the project to closure with the State, I was very aware my project was in very capable trained hands!

I will recommend ANCO to others. Please feel free to use me as a reference with potential customers.

Sincerely,  
  
Carl C. Teschke
